ATTEMPTS SUICIDE.

Crazed by Grief, Woman Threw Herself in the Path of a Heavy Motor-Truck.

Philadelphia, July 29. Crazed by grief over the tragic death of her husband, Raymond J. West, who was blown to pieces by the explosion of a supposed empty shell on the old proving ground near Cape May, his widow yesterday made a pathetic attempt to end her life. Breaking away from her father-in-law and a neighbor, Mrs. West, moaning "I want to end it all," threw herself in front of a heavy motor-truck on Arch street near Fifty-first.

The driver clamped on the emergency brake and Mrs. Harry Bornman, No. 118 North Dearborn street, the neighbor, grasped her dress, holding the grief-stricken woman back the necessary moment to save her life, and she fell fainting just as the ponderous truck was brought to a stop within a few inches of her.

She was carried into a near-by house and revived. "I am sorry I was not killed." she wailed as she recovered consciousness. "I wanted to poin Raymond."

Mrs. West has been hysterical since her return to her home at No. 119 North Dearborn street, and is now under the constant observation of relatives, for it is feared she may make another attempt on her life. West leaves besides his wife two children, Raymond, Jr., 5 years old and Walter, 3 years old.

SWINE KILLED BY MAD DOG

Strange Animal in Charles County, Md., Responsible For Death of 44 Hogs And Pigs

La Plata, Md., July 29.—A drove of purebread Duroc-Jersey swine, belonging to George H. Stevenson, of Mount Air Farm, near Faulkner, was attacked by a supposedly mad dog on July 7. Thirty-two pigs and shoats, ranging from two weeks to three months of age, were killed outright and 12 brood sows and a boar were bitten. Mr. Stevenson is manager and secretary of the Maryland Tobacco Growers' Association and was not at home.

The dog was killed by Mr Stevenson's brother. The dog's head was sent to Baltimore examination for rabies but on account of delays was in such condition that no examination could be made.

Several days ago one of the injured hogs died. Dr. Charles C. Shivers, veterinarian, took its head to the laboratory of the Bureau of Animal Industry in Washington. An examination showed that the bog died of rabies. The other 12 injured hogs were ordered killed yesterday.

Mr. Stevenson's loss is estimated at $1,000.

HAS SKULL FRACTURED.

Man Thurst Head Out of Car Window and Hit by Passing Coach.

Gloucester, N. J., July 28.—Frederick Blank, 32 years old, an employee of the Pusey and Jones shipyard here and living at Ritchie and Clay avenues, West Collingswood, stuck his head over the screen on the side of a trolley car Monday morning while on his way to work and was struck by a northbound trolley car. He is now in Cooper Hospital in a serious condition with a fracture of the skull.

Blank, when he pushed his head out the window, called to a relative, who is a special officer at the south yard of the New York Ship Yard, and had not an inspector standing on the side of the street called to the motorman, who brought his car to a quick stop, he would have been killed..

FORBIDDEN TO AFFILIATE

School Boards May Refuse to Employ Union Instructors

Philadelphia, July 29.—Public school teachers of Pennsylvania are forbidden to affiliate with the American Federation of Labor, in a ruling made yesterday by Dr. T. E. Finegan, State Superintendent of Public Instruction

The decision is said to be the most drastic issued by a public school official in any State, against teachers' unions. Under the State Superintendent's ruling Boards of Education or District school boards may refuse to employ teachers who are members of the American Federation of Teachers, regardless of their professional qualifications.

HIGH-TONE APPLICANT.

Farm Hand Looking for Job Drives Up in a Taxicab.

Oklahoma City, Okla., July 29.—Some "rich relative" was the comment of James Simpson, a farmer living near this city, when he saw a bright yellow taxicab drive up to his gate and stop. But it wasn't. It was a twentieth-century farm hand, late of New York City, who had been advised by the Federal State Employment Bureau that Simpson would pay $150 a month and board for a good farm hand. He worked about long enough to earn the money the taxi cost him and then left, said Simpson, in relating the incident.

DOG WALKS 900 MILES HOME.

Abuquerque, N. M., July 29.—Two years ago Roy M. Coe and family moved here from Fort Scott, Kan., bringing with them the family pet, Bud, a collie dog. Last November, Bud disappeared from home and, although Mr. Coe advertised and offered a substantial reward for the dog's return, no trace of him was found.

The other day Coe received a message from his brother-in-law, an employee of the Fort Scott Gas Company, reading: "Bud, somwhat tired, walked into the gas plant and lay down." The dog apparently had consumed about eight months making the trip of approximately 900 miles. The trip to Albuquerque was made by train, consequently on his eastward journey, Bud had no familiar landmarks to guide him, unless he followed the railroad.

The Alexandria Chamber of Commerce has a committee of two who are assisting the band in securing the necessary money to finance this organization and any money donated will be used to good advantage. This is your band, Mr. Citizen, and in time you will have reason to be proud of it. Come over and help us to soon give you a first class band.

TOMATOES HID SUIT CASE

Revenue Officers Also Find Suit to Be Pressed Covers Water Bottles Filled With Booze.

Suffolk, July 29.—Two men, a mule and buggy and a horse and buggy, with six water bottles full of fiery liquid, and a suitcase full of Monkey rum, are just some of the booty falling into the hands of Federal Officers Wagner and Duncan Friday morning after a weary wait on the road to Crittenden Wharf in Isle of Wight County.

Andrew Bailey, ambling to the wharf with two baskets of big red tomatoes in the foot of his buggy, was hailed and asked by the officers what he had.

"Just some tomatoes for the Newport News market."

The officers looked under the fruit, which was pilled high, and found the suitcase full of Monkey rum. A ride to Bailey's home also disclosed the fact that there were four stills near it.

A little later, John H. Thomas came along with a horse and buggy. The end of a pasteboard box protruded from under the seat of the buggy. "Give us a look—see," said the officers.

"Just a suit I am taking over to Newport News to have pressed," was Thomas' declaration.

The "suit" proved to be six water bottles full of liquor.

Bailey is now out under a $1,000 bond for his appearance at the next term of Federal Court, and John Thomas put up bail in the sum of $500 for his appearance.

VILLA'S CAREER ENDS

Mexican Outlaw Seeks Terms of Safety, But U. S. May Demand Him.

Eagle Pass, Texas, July 29.—Francisco Villa, the powerful Mexican marauder and the one remaining obstacle to peace in Mexico, is reported to have surrendered to the Mexican government at Sabinas Coahuela. This report was received from authentic sources over Mexican wireless yesterday afternoon.

STREET CAR IN WILD DASH

Woman Brings Runaway Under Control After Thrilling Ride

Worcester, Mass., July 29.—Failure of the air control on a street car here to function properly yesterday caused the car to start when the motorman and conductor had left the car to telephone and the car dashed a distance of a mile before it was brought under control by Mrs. Bertha Viella, who with her three small children were the only passengers.

The motorman boarded an automobile and gave chase to the runaway and after overtaking it jumped from the automobile into the car and brought it to a full stop.

The car attained the rate of 50 miles an hour during its mad dash down the hill and passed several bad curves in its wild flight, but managed to hold the rails.

Mrs. Viella and the three children were uninjured.

FRIGHT PREVENTS SUICIDE

Sunbury, Pa., July 29.—The thought of suicide gave Mrs. Isaac Smith, Sunbury, heart failure, as she stood with a vial of poison before a mirror and contemplated suicide, she says, and she fell unconscious to the floor. Doctors revived her and she now declares she has been as near to death as she cares to be.

U. S. IS WATCHING JAPANESE AIMS

Secretary Colby and Geddes Confer on Interests in Oriental Affairs

PROTEST TO TOKYO

America is "Certain Country" Which Offers Objection to Saghalien Occupation—British Interest Identical

Washington, D. C., July 23.—The American Government is understood to be giving close attention to Japanese relations and Japan's general policy in the Far East because of the effect on the questions involved of the recent withdrawal of American troops from Siberia, the signing of the consortum relative to Chinese financial aid, the assumption of control of the Chinese Eastern Railroad by the Japanese, and the Japanese occupation of Northern Saghalien and the greater portion of the maritime province of Siberia.

Secretary Colby has conferred with Sir Auckland Geddes, the British Ambassador here, who brought into the conference Sir Beilby Alston, British Ambassador to Japan, who is returning to London on leave. Sir Beilby was in a position to give Colby the latest information from the Japanese capital supplementing the views of Roland Morris, the American Ambassador to Tokyo, who is home on leave of absence.

British interests in China and Japan are regarded here as paralleling to some extent those of America because of the large business transactions between those countries and the British dominions of Canada and Australia, as well as the common desire of the colonial governments and California and other Pacific States to find some solution of the problem of Oriental labor. The solution of this problem by the British Government, in the opinion here, is made more complex by reason of the existence of the Anglo-Japanese treaty, which recently was renewed for one year.

SAYS U. S. SHIRKS DUTY.

Halifax, July 29.—Failure of the United SStates to assume some of the responsibilities "which its triumphant entry into the war imposed upon that country," is largely responsible for the continued unsettled conditions throughout the world, Robert Donald, chairman of the Imperial Press Union and one of the foremost newspaper men in Great Britian, declared here yesterday in an address at a civic luncheon given the Imperial Press Conference delegates.

"The two branches of the English-speaking people," he said, "acting together harmoniously in peace as they did in the latter period of the war could have reconciled or silenced the clashing interest of Europe; led the new democratic States, carved out of old tyrannical empires, gently but firmly into the paths of peace, and established on a sure and lasting foundation the League of Nations Then indeed, the world would have been safe for democracy. Let us hope that the lapse is only temporary.

FLEEING STRIKER KILLED

New York, July 29.—One man was shot and killed by a policeman and four others were arrested here Tuesday, following an attack on Abraham J. Aomarrow, a furrier, in his store at Broadway and One Hundred and Fortieth street, by five alleged striking fur workers. After badly beating Aomarrow, the men attempted to escape in an automobile, but were halted by a policeman, who opened fire on them with his pistol. Max Yurman, 27 one of the occupants of the car, was almost instantly killed by a bullet.

The men, the police say, attacked Aomarrow because he denied them admittance to his store, when they called to see if strikebreakers were working.

WAITED FOR REVENGE.

Alien Shoots and Mortally Wounds Truck Driver, Who Ran Over Boy Who Ran In Way.

Woodlawn, Pa., July 29.—Patiently waiting two months to wreak vengeance on the man who is blamed for the death of his son, Patsy Condenti shot and fatally wounded Anthony Frank, 33 years old. The police are scouring the hills in search of the assailant. Frank is dying in the Rochester Hospital.

Two months ago Condenti's four-year-old son was run over and killed by a truck driven by Frank. At the inquest it was testified that the child had run in front of the big macine and his death had been entirely unavoidable. No blame whatever could be attached to Frank, who had made every effort to avoid running down the child.

Since the death of his son Condenti has been morose and ugly in his moods. Frequently he declared that Frank was responsible for the death of his son and that he would some day exact payment for his loss. Monday Frank's truck stopped near the Condenti home. A few seconds later Condenti appeared at the door, revolver in hand and opened fire on Frank. Five shots were fired, one taking effect in the abdomen and the other in the right leg, shattering it.

Frank was taken to the hospital, where he is dying. Condenti fled to the hills, with a posse following. Frank in a statement following the shooting said he frequently tried to convince Condenti that he was not to blame for the death of the latter's son, but Condenti remained unconvinced.

MAKE $35 to $52.50 PER DAY.

Denver, Col., July 29.—Sheep shearers make as much as $50 a day, the State Labor Department has learned. In hearing evidence in a wage dispute it was disclosed that the contract price for shearing is 17 1-2 cents a "shear."

The evidence further disclosed that a good workman, with modern equipment, can clip 200 sheep a day, which means $35. This is considered about the minimum wage among journeymen of the profession. The experts can shear 300 sheep in a day, which nets them $52.50.

Idle Hour Theatre

Mrs. R. Hacker Selects Name and Wins Prize—1000 Names Submitted

The Idle Hour Theatre is the name selected for the moving picture theater on the south side of King between Royal and Fairfax streets formerly known as the Grand Theater.

This name was submitted by Mrs. R. Hacker, 412 King street, and the announcement of the winner was made last night by Harry Cohen, manager.

The special committee named by the theater to go over the 1,000 odd names submitted by the contestants had their hands full for the last few days. After carefully weighing the matter, however, the foregoing name was chosen, and strange to say Mrs. Hacker was the only person submitting this name among the many contestants. Mrs. Hacker today was awardeda prize of $25 for winning the contest. She was not present when the award was announced last night and received the prize from the management today.

WOMEN OPPOSE SUFFRAGE

Anti-Amendment League Denounces Democratic Stand.

Nashville, Tenn., July 29.—The Southern Women's League for the Rejection of the Susan B. Anthony Amendment opened its campaign against suffrage ratification in Tennessee by publishing an appeal to Gov. Cox, the Democratic Presidential nominee, for a hearing on woman suffrage. Mrs. James S. Pinchard, the president of the League denounces the Democratic suffrage plank as a "studied insult to the South."

"We make this appeal," she says in her letter, "because it is boldly proposed, regardless of the unalterable opposition of the majority of women, to bring about the political conscription of our womanhood and the destruction of Southern civilization by using Federal patronage and party pressure to coerce the legislators of Tennessee into violating their solemn oaths of office and their State constitution.

FUNERAL OF MRS. WOOD

The funeral of the late Mrs. Selina Tutman Wood took place in Old Christ Church this afternoon at 5 o'clock. The interment was in the Presbyterian Cemetery and was private. The vestrymen of Christ Church acted as honorary pallbearers and the active pall bearers were Messrs. Frank King, Marshall L. King, Charles W. King, Arthur King, Louis King and Kenneth Ogden and Dr. E. C. Schneider, all of whom were nephews or great nephews of the deceased.

In the death of Mrs. Wood, Christ Church and the whole community have sustained a very real loss. Many handsome floral tributes bore silent but beautiful testimony to the love and esteem in which this noble christian woman was held by her church and by a host of friends.

For many years past Mrs. Wood has been an active worker not only in all church societies, but in visiting the homes of many who needed and were helped and strengthened by her kindly ministrations and christian character. She was a woman of rare sweetness of disposition and manner, coupled with singular forcefulness of character. At the time of her death she was president of the Chaucel chapter and had previously served in the same capacity the Parish Aid Society and other important organizations in her parish. For some months past she had been in failing health, and was at times a great sufferer, but no word of rebellion or complaint was heard from her lips, and her christian faith saw no eclipse because of bodily suffering, but rather grew brighter as the hour of departure drew nearer.

She is survived by her husband, Mr. Wm. D. Wood, who is an active honored member of the vestry of Christ Church, also by a daughter, Mrs. Maurice Wilkins, a grand-daughter, Miss Marion Virginia Wilkins, and by two sisters, Mrs. Charles King of this city, and Mrs. Pricie Hurdle, of Washington.

"The strife is o'er, the battle done;
The victory of life is won;
The song of triumph is begun,
Alleluia!"

CRAZED BY MEDICINE DRUNK

Two Drinkers Are Raving Maniacs In Jail

Chambersburg, Pa., July 29.—Two men confined in Franklin county jail are raving maniacs due to drinking a patent medicine said to contain 20 per cent alcohol. One is a expert mashnist, the other a mechanic with six children, and both are between 38 and 45 years old. The alleged medicine is sold openly, although one hotel man is under bail for selling it.

BODY IS IDENTIFIED

Detroit Detective and Wife Both Declare it is Mrs. Leroy.

New York, July 29.—The body of a woman found in a trunk here was positively identified by Mrs. Leo Trumbull, of Detroit, yesterday as Mrs. Katherine Leroy, of that city. "That's her! That's her!" Mrs. Trumbull screamed hysterically when the body was uncovered. She grew faint and was quickly led from the room. Her husband, a patrolman of Detroit, also identified the body as that of Mrs. Leroy.

Mrs. Trumbull declared the dead woman had confided to her shortly before her disappearance that she was about to become a mother and June 9, the day before the body was shipped here, said she could no longer stand the threats of Leroy and was going to leave him the next day.

SAMUEL SORRELL IS FREED BY JURY

Verdict Rendered After Half an Hours' Deliberation

SELF-DEFENSE CLAIM

Trial Consumed But One Day in the Corporation Court—But Few Spectators Present

Samuel Sorrell, charged with shooting and fatally wounding his brother, Charles Sorrell, a veteran of the world war, early on the morning of July 4, was acquitted by a jury in the corporation court, Judge Robinson Moncure presiding, late yesterday afternoon. The jury deliberated about half an hour after the case was submitted.

As was stated in the Gazette, the court took a recess at one o'clock until two yesterday afternoon.

Upon reassembling Nettie Mason, colored, in whose ark the shooting occurred, took the stand. Charles Sorrell, she said entered her ark after the difficulty with his brother Samuel, presumably in search of a pistol which, she supposed, he knew was in the ark. After a fruitless search of a trunk, he repaired to the head of her bed, where the weapon had been placed, and was, she believed, in the act of securing the pistol when she heard the report of a gun. Charles, desperately wounded, was subsequently led to the top of

HUMAN BONES FOUND

Stranger Suspected of Setting Barn on Fire to Hide Traces of Crime

Danville, Va., July 29.—Evidences of a grewsome tragedy were uncovered yesterday in the ruins of a barn burned Saturday night at the home of John Lockhart, near Wallington, when human bones and teeth were found among the ashes. Physicians who have looked over the bones say they are what is left of probably two persons, adults, but they are unable to determine the sex.

James Phillips, the tenant on the place, left with his family Saturday afternoon to spend Sunday with friends in Wellington. He left all the doors and windows of the barn open, as it contained a lot of new hay and he desired it to get plenty of air.

Neighbors say that when they arrived in response to an alarm the barn was blazing, but that all doors and windows were closed. It is said a strange automobile, bearing evidences of long, hard travel, stopped near the barn just before dark, about an half an hour before the fire broke out.

People thereabouts believe the automobile either brought in the bodies of two murdered persons or that they were taken into the barn and killed and the structure set on fire to cover up the crime.

TRUCK RIDE LAST NIGHT

The moonlight truck ride given last night by Martha Washington Chapter Order of Eastern Star, was a most successful affair. There were nearly one hundred in attendance and the trucks left 906 King street about seven o'clock, going to the home of Mrs. Veach at Lincolina, where a most delightful evening was spent in dancing. Refreshments were served and at a late hour the party returned to this city after an enjoyable ride in the moonlight.

RUSH FUEL OIL TO GARY

Effort to Avert Enforced Idleness of Thousands of Steel Men

Gary, Ind., July 29.—Thousands of gallon of fuel oil were being rushed to Gary's steel plants yesterday to avert paralysis of industry here, which threatens to throw many thousands of men into idleness, it was stated by officials of the companies affected. Conservative estimates place the number of men out of work at 5000 due to inabilite to secure fuel.

Oil storage tanks of the United States Steel Corporation plant contain a supply sufficient to keep the mills in operation for several days, it was stated. Tar also is being used to keep the blast furnace going.

TOO MUCH LAW.

A successful farmer, who in the evening of his life is residing in Alexandria, was exchanging notes with acquaintances a few days ago when he directed attention to the fact that during the shortage of farm labor many youngesters seen daily killing time in cities who might be employed profitably in performing light duties on farms. Many of these boys are sons of men who have been brought up in the rural sections, but who during the past few years have stampeded to cities which they are loth to leave and return to their natural avocations. The gentleman alluded to said he began work when twelve years of age. The child labor law of Virginia makes it a misdemeanor to employ boys under fourteen.

The report of the United States Census Department showing that in Sussex county, Del., there are 104 less farms than there were ten years ago, and 22,115 less acres of cultivated land, has brought forcibly to the attention of prominent business men and agriculturists the exact condition lower Delaware is facing unless the steady flow from the farm to the cities is not stopped.

The State Labor Commission at once took notice of the report, and yesterday one of the members, Thomas T. Frame, an attorney of Dover, proposed a plan whereby school boys from cities could be organized in a movement for vacation work on farms and shown the benefits and happiness of farm life in the hope that it may influence their future life towards a determination to get back into the country.

Many farms are now found to be growing up in pine timber notwithstanding the heavy demand for farm products.

SPEAKING CLOCKS.

A large percentage of Alexandrians are employed in Washington, many young people being among the number. In some cases it is difficult for older members of the family to get them off in time to catch their trains. The early morning nap is the sweetest sleep, and to be disturbed while in the arms of Morpheus is hard to endure. Alarm clocks are generally abused, as are bells which proclaim the hour of six, while the long blasts of the steamers from Norfolk, generally on time, are obnoxious to the young who are not prone to get up early in the morning.

During the late war some genius conceived a scheme, "Oh, how I hate to get up in the morning," composed for the benefit of young recruits accustomed to be in bed until after others are at work. This sonnet is on a record used on talking machines, and sometimes it is discoursed near sleepy ones in the early morning hours. This device, however, has proven a failure and the song and machine have uncomplimentary epithets leveled at them.

Some genius perfected a machine which may be used with better results. It is in the shape of a talking clock. Instead of striking the hours and half hours, it speaks them right out.

"Time to get up, time to get up," shouts the clock at 6 a. m.

"Breakfast is ready," warns the clock an hour later, and inmates of a family are supposed to hurry downstairs to the table, where breakfast is ready.

"Time to go to work," the clock soon warns everyone, and at 9 it informs the woman of the house that it's the hour to do the marketing.

OBJECT LESSONS.

Gripping the barred door of his cell and shaking it until the rattling frightens his more timid companions, a prisoner in the Franklin county Pa., jail chatters incoherently of religion and travel; his eyes lighted at intervals with the fire of a maniac and the bewildered stare of the imbecile. In an adjoining apartment another mental derangement and wasted body sullenly awaits his hour of freedom. Both are victims of an alleged tonic, containing 20 per cent. alcohol and sold variously at hotels and groceries.

The former case is the more violent of the two. In the prime of life; an expert mechanic and the father of children, all contribute to make the case more pitiable. Recently in a violent outburst he tore the clothing from his body in shreds. He shattered the iron bed in the cell and ripped the bed clothing to ribbons. This unfortunate man talks continually of religion and the long trips he intends taking and of staggering sums of money. He says he does not need the medicine given him, and that he is taking it only to please the attending physician.

MINE OFF CAPE CHARLES.

Menace to Shipping Believed to Have Drifted Across Atlantic.

A German floating menace believed to have been placed in the North Sea during the war and to have drifted across the Atlantic, was sighted yesterday off Cape Charles. The sighting of the mine was reported to the Hydrographic Office of the Navy and warnings have been sent out.

It is believed the mine is the same that has been seen for the last two months in different places, but always coming nearer this country. The mine was reported on July 12 as about 400 miles southeast of Newfoundland and on July 17 was seen about 150 miles out of New York. When seen yesterday it was 19 miles northeast of Cape Charles light.

Although there are few of these floating mines, one of them embodies considerable danger as it is practically impossible to locate them once they have disappeared from shipping lanes.

ISSUES WAGE WARNING.

Industry Curtailment and Salary Reductions to be Resisted.

Organized labor has issued solemn warning that the workmen of the country will resist to the last ditch any reduction in wages or any curtailment in industry, either as a pre-election or as a general policy.

The warning came from Samuel Gompers, president of the American Federation of Labor, and was prompted by the recent action of the Pennsylvania Railroad in dropping 12,000 men and the shutdown of the mills of the American Woolen Company.

BANNER WAVED AT JURY

Attorney for Reds Charged With Conspiracy Makes Fiery Speech

Chicago, July 29.—Pontius Pilate's trial of Christ and the mob's demand for the Nazarene's life were retold and the Red flag of Bolshevism waved before the jury yesterday as William S. Forrest, attorney for William Bross Lloyd and nineteen other Communist-Laborites, charged with conspiracy to overthrow the government by force continued his argument. Mr. Forrest began his speech Thursday, spoke all day yesterday and is expected to take most of today. His associate, Clarence Darrow, and two assistant State's attorneys remain to be heard.

Mr. Forrest told the jury that his clients may have been silly, but that the jury should not find William Bross Lloyd guilty just "because he talked about dynamiting the banks and the arsenals any more than you would some ineffective crank who thought he could sink the latest government man of war by firing a double barreled shot gun once against its steel side."

History shows, he declared, that it is more dangerous to suppress free speech than to permit it.

GREAT STORM IN SPAIN

Damage Is Estimated at Millions of Pesetas—Merchandise Washed Into Sea

Madrid, July 29.—Latest reports from Barcelonia indicate that the recent storm which swept northern and northeastern Spain caused damage estimated at millions of pesetas. Many houses and stores collapsed, and others were inundated as torrents of water rushed through the streets. Quantities of goods stored on the wharves, including large consignments of German dyes of great value were washed to sea.

Firestone

Sales of this tire have increased 96% the first six months of this year, proving the balanced tire, the Firestone 3½ has accomplished what Firestone sought for it, more mileage, greater economy, greater comfort, which has been passed on to the public at low cost—most miles per dollar.

Balanced! That means to you more than mere thickness of tread, greater air capacity, more plies of fabric, greater cushioning, or the gauge of the sidewall. It means that all component parts of the Firestone 3½ are scientifically balanced by specialists who have put years of study and practice into a single purpose—to meet your demand in a small car tire. You can now have all four tires on your car give uniform service if they are Firestone.

FOOD FAMINE LOOMS

Crews Refuse to Move Cars Controlled By Military.

Belfast, July 29.—Donegal yesterday morning was making frantic telephone appeals to Londonderry for food supplies. These, however, could not be delivered because train crews refused to move trains with military on board and the military insisted on occupying the trains.

The train which was stopped at Letterkennery Monday by Sinn Feiners, because it was transporting troops, was still there today with the military guarding it.

Masked armed men early yesterday morning held up the Belfast-Dublin train at Newry and took away the mails.

Cork, July 29.—Constable Murray was shot dead in the main street of Cionakitlty Tuesday night.

Yesterday's quoations were $13.50 to $13.55 a barrel in carload lots, in 98-pound cotton sacks, for family patents.

Bran also dropped to $45 a ton from yesterday's quotation of $49.

SAMUEL SORRELL IS FREED BY JURY

(Continued from page one)

an adjoining hill, and Samuel Sorrell put on his shoes preparatory to proceeding to the station house to give himself up. Witness heard Charles curse Samuel and threaten to kill him after the early morning difficulty. She, however, saw no weapon in Charles' hand.

Samuel Sorrell, the accused, subsequently took the stand. He told of playing cards with his brother and others in James Deane's ark, and his dispute with Charles when he (Samuel) took a "rate off." Charles, he alleged, wanted to fight, and had knocked the accused down. Later Charles left for the purpose of procuring a pistol. He had threatened to shoot the accused. Charles returned later, cursing him, and attacked him with rocks. He left the second time, when he gave every indication of having a gun. Charles had sworn to kill the accused before sundown. Charles entered the ark, searched the trunk, and had his hand on a pistol which he found at the head of a bed, when the accused discharged his gun. The gun which was used in the tragedy, which belonged to an Italian living in a nearby ark, had been previously procured by Charles, and it had been taken from him by certain persons who were nearby when the trouble between the brothers began.

A brother and a sister of the dead man later testified in the interests of the defense, they alleging that their dead brother was high-tempered when incensed and inclined to be dangerous.

UNION PICKETS SHOPS

Store Partly Owned by Mrs. Wilson Among 6 Which Are Claimed Unfair.

Washington, July 29.—Galt & Brother, jewelry store of which Mrs. Woodrow Wilson is one of the owners, was included in the list of six jewelry shops picketed by members of the Jewelry Workers Union again yesterday. The pickets paced back and forth in front of the stores admonishing holders of union cards to buy their jewelry elsewhere.

The picketers claim they were denied the right of collective bargaining by their employers and were consequently locked out. F. M. Leitheiser, agent for the union, said yesterday three or four more jewelry stores would be added to the list of the picketers today. The stores which are now being picketed are Galt & Brother, Shaw & Brown, S. Desio, Charles Schwartz & Son, R. Harris & Company, and Selinger's. There are thirty members of the Jewelry Workers' Union who allege they were locked out and are participating in the picketing.

MOVIES

RICHMOND—"More Deadly Than the Male."

The question of where to find adventure and excitement is a big one. Some people say it is to be found in foreign lands, some say at home.

Come to the Richmond Theatre today and see Ethel Clayton in "More Deadly Than The Male." That is, if you really want excitement, five reels of it.

The picture is all about a man who wants to go to Zululand for adventure. He meets a clever girl who shows him that it's more exciting to stay at home. Does she prove it? Well, rather!

The picture is filled with all the things you like in a picture-comedy, drama, romance, and excitement.

INGOMAR—Margarita Fisher.

If you have read Cosmo Hamilton's play, "The Week-End" you have some idea what you may expect in the "Flying A" drama of that name at the Ingomar tonight. But you haven't any idea, until you see it, what wonderful love-making scenes Milton Sills puts over, or how irresistible is Margarita Fisher in a nifty bathing costume specially designed for this film Special.

This lively drama, with a typical Cosmo Hamilton plot, sparkling with humor, and unconventional to the last degree of a perfectly straight American girl's ambition, decidedly spicy in spots, yet clean and wholesome enough for a Sunday School audience—this Special is designed to entertain and not to instruct, to give a weary, toil worn public an evening of delightful diversion.

Describ[ing] in detail how he came to Nashv[ille] from his home at Cagey's Bend [and] mail the candy, after buying it and [ob]strychnine with which it was trea[ted] in Gallatin, Littrual told how he t[ook] placed the return address of Mrs. L[it]trual's first husband, his own fi[rst] cousin, on the package, in order to [at]tach suspicion to the cousin.

This candy was received at the [in]sane hospital last week. Littrual w[as] arrested at his home several mi[les] from here Saturday night and un[til] yesterday steadfastly denied that [he] had ever made any attempt to divor[ce] his insane wife. The laws of Tenne[ssee] do not permit divorce on groun[ds] of insanity.

FOILS NEGRO ROBBERS

Cashier Too Quick on the Draw For Hold-Up Man, Who is Being Tracked by Bloodhounds

Suffolk, Va., July 29.—Turning his head quickly yesterday morning as he was about to unlock the vault door at the Bank of Sebrell, Cashier L. A. Wood saw peeping at him over a desk top a negro, who had leveled a gun at the young banker.

Mr. Wood reached for his own gun and the negro jumped and ran, with the banker in hot pursuit.

Disappearing in a cornfield, the would-be holdup man made his escape, but bloodhounds are now on his trail.

The negro had entered the counting room and had hidden behind a desk and a slight movement made the cashier turn his head, just as he was about to unlock his vault.

The man arrested was armed with a big gun and was unable to give a proper account of himself.

Good Light Lightens Labor : :

Lighting the kitchen is like lighting a factory. Good lighting quickens production, as the factory man would say. In other words, it makes work go faster without the expenditure of any more energy.

Of all places needing more light and better light the kitchen in most homes is one of the most important. And when you have doubled or trebled the light in your **work** rooms, try it also in your **living** rooms.

If you find that doubling or trebling the illumination there mean glaring light, **don't** cut down the amount of lighting again—**shade** the light better! Keep the direct rays from striking the eye. Throw some of the light to the ceiling and walls.

In every socket—in every room from cellar to garret—use only

EDISON MAZDA LAMPS

If you will do that, you will find that a great deal more light in the room is decorative, pleasing and restful. It's not the amount of LIGHT that you find irritating in some rooms, but the amount of GLARE.

OUR METER MEN REPORT THAT A NUMBER OF OUR CUSTOMERS ARE USING CARBON LAMPS. WHY NOT BE UP TO DATE? USE MAZDA LAMPS—BETTER LIGHT—LOWER BILLS.
